

## Welcome to the Supply Chain Management *Express* Class 9!

The Supply Chain Management *Express* is an intensive, accelerated program designed to help motivated students earn their Bachelor of Applied Science degree in Supply Chain Management in just over 2 years. Along the way you'll also earn your Associate of Science degree in Supply Chain Management Operations, your Associate of Arts degree, and a number of Technical Certificates.

We are proud to have a partnership with the Council of Supply Chain Management Professionals (CSCMP), the leading industry association which boasts members around the globe. CSCMP maintains the SCPro™ Fundamentals certification program. As part of your studies, you will have the opportunity to earn a number of SCPro™ Fundamentals certifications. You'll see them notated throughout the schedule by the  logo. There is a fee associated with these certification exams. Earning these certifications will set you apart in the workplace.

We also have a number of ways to accelerate your education *even more* by offering test-out options for certain classes. If you have the requisite knowledge, you may be able to earn credit for courses by taking a test to demonstrate your competency. These courses are denoted throughout the schedule by a .

All classes are held at the Broward College Miramar West Center, which is located at 1930 SW 145<sup>th</sup> Street, Miramar, FL 33027.

Ready to start? You first need to:

- 1) **Apply to Broward College** by visiting [www.broward.edu](http://www.broward.edu) and clicking on the orange 'Apply Now' button in the upper left corner.
- 2) **Pay the application fee.**
- 3) **Order your transcripts** from your high school and any college or university you have listed on your application.
- 4) **Apply for Financial Aid.** Even if you don't think you'll be eligible for federal financial aid, it's to your benefit to complete your Free Application for Federal Student Aid (FAFSA) as many scholarships require that you apply for federal financial aid first.
- 5) **Take Placement Tests.** If you graduated high school prior to 2014, or graduated high school outside the State of Florida, you may need to take placement tests.

Lastly, all students graduating from a bachelor's degree in the State of Florida must meet the foreign language competency requirement. Speak to the program advisor for more details.

Contact Dean Russell McCaffery for more information at [rmccaffe@broward.edu](mailto:rmccaffe@broward.edu).

# Supply Chain Management *Express*, Class 9 Course Descriptions

Fall 2019 (Term 20201)

Session 2 – August, 2019-October, 2019

**Friday Night - 6:30pm - 9:15pm**

 **CGS1060C** - *Computer and Internet Literacy* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** This is an introductory course in basic computer and internet use. It covers computer hardware and software fundamentals (including the use of Windows), key productivity applications (including word processing, spreadsheets, and presentation systems), and living in an online world (including network fundamentals, e-mails, and the effective use of the Internet as a communication tool and information resource). Students will develop basic computer skills to aid them with college studies and workforce readiness. Hands-on use of a personal computer is required.

**Saturday Morning - 8:00am - 10:45am**

 **ENC1101** - *Composition I* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** A university parallel course in which the student writes expository themes in various modes. Research methods and library skills are introduced and a documented paper is required. Each student is encouraged to use the writing lab to strengthen writing skills. Placement in ENC 1101 is determined by both standard and departmental assessment tests. A student must earn a grade of "C" or higher to meet the requirements of the Gordon rule.

**Saturday Afternoon - 12:00pm - 2:45pm**

**SCM1154** - *Supply Chain Management* (3.0 Credit Hours) 

**Prerequisites:** None

**Course Description:** This course presents an integrated approach to the management of activities involved in moving goods and services from suppliers to customers. The course will focus on what employees and managers must do to ensure an effective supply chain exists in their organization. Students will learn about SCM functions, warehousing, purchasing and inventory, e-commerce, information flow and customer service. Students planning on earning the Bachelor of Applied Science degree in Supply Chain Management must earn a grade of 'C' or better.

 Credit-by-Examination option available for this class.

Fall 2019 (Term 20201)

Session 4 – October, 2019-December, 2019

**Friday Night - 6:30pm - 9:15pm**

**CGS1510C** – *Excel Data Analysis* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** This course provides hands-on applications with a spreadsheet software package. Through lecture and lab practices, students, will develop skills that create, manipulate and utilize spreadsheets. Students must earn a grade of ‘C’ or better.

**Saturday Morning - 8:00am - 10:45am**

**APA1111C** – *Introduction to Accounting*

**Prerequisites:** None

**Course Description:** This course provides instruction in standard bookkeeping procedures for small professional, service, and retail sole proprietorships. This course focuses on understanding the accounting equation, preparing basic financial statements, cash management, payroll, and inventory management. This course is primarily for the non-accounting major.

**Saturday Afternoon - 12:00pm - 2:45pm**

**SCM1010** - *Introduction to Transportation & Logistics* (3.0 Credit Hours) 

**Prerequisites:** None

**Course Description:** This course deals with the role of logistics in the economy and the organization. Topics explored are customer service, logistics information systems, inventory management, material management and supply chain management. The objective is to explore the full scope of the transportation plant and its services as a necessary preparation to efficient use of the transportation system. Students planning on earning the Bachelor of Applied Science degree in Supply Chain Management must earn a grade of ‘C’ or better.

Credit-by-Examination option available for this class.

Spring 2020 (Term 20202)

Session 2 – January, 2020-March, 2020

**Friday Night - 6:30pm - 9:15pm**

**ECO2023** - *Principles of Microeconomics* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** An introductory course stressing microeconomic theories. Topics studied include the theory and application of supply and demand elasticity; theory of consumer demand, utility; production and cost theory including law of diminishing returns; the firm's profit-maximizing behaviors under market models ranging from pure competition to pure monopoly; the theory of income distribution; comparative advantage, trade policies exchange rates, balance of payments, and other international issues. This is a writing credit course. Prerequisite: Completion of prep reading obligation.

**Saturday Morning - 8:00am - 10:45am**

**SCM1510** – *Manufacturing and Service Operations* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** This course teaches the operations function as a function that takes inputs and transforms them to outputs which meet customer requirements. Manufacturing outputs may take the form of materials, components, parts, or finished products. Service operations come in a wide variety of situations such as: repair operations, equipment set up operations, or event management services. The importance of managing operations processes is also introduced. The types of decisions that are made to ensure the design of effective and efficient operating processes is reviewed.

**Saturday Afternoon - 12:00pm - 2:45pm**

**SCM2098** - *Warehouse Operations* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** This course will enable students to understand the various functions involved in the operation of a warehouse. Key elements include: the role of warehousing in the supply chain, storage and handling techniques, performance metrics, customer service considerations, and safety concerns across various types of distribution facilities.

Credit-by-Examination option available for this class.

Spring 2020 (Term 20202)

Session 4 – March, 2020-May, 2020

**Friday Night - 6:30pm - 9:15pm**

 **ECO2013** - *Principles of Macroeconomics* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** An introductory course in macroeconomic principles covering basic economic problems and concepts. Topics discussed and analyzed include basic economic problems of unemployment and inflation. Students will recognize the role of households, businesses and governments in the market economy and in their own lives. This is a writing credit course.

**Saturday Morning - 8:00am - 10:45am**

**STA1001** - *Pathway to Statistics* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** This course will lay the foundation for further statistical study. This course introduces basic statistical concepts and focuses on data analysis and quantitative reasoning. This course emphasizes both written and verbal communication of statistical concepts, and helps prepare the student for inferential statistics courses. This course is designed for students who do not intend to major in math, science, computer science, business, etc. Please check your degree requirements before enrolling in this course. Students who complete this course will be prepared to enter STA2023 and MGF1107.

**Saturday Afternoon - 12:00pm - 2:45pm**

**EVR1001** - *Environmental Science* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** Study of the physical environment, its relationship with the biosphere, and man's impact upon natural systems. This course includes ecological systems, Florida environments and geology, pollution and environmental regulations, renewable and nonrenewable resources, and sustainability. This course meets General Education requirements in the Biological and Physical Sciences.

 Credit-by-Examination option available for this class.

# Supply Chain Management *Express*, Class 9 Course Descriptions

Summer 2020 (Term 20203)

Session 1 – May, 2020-August, 2020

Saturday Morning - 8:00am – 9:50am

**STA2023** - *Statistics* (3.0 Credit Hours)

**Prerequisites:** STA1001 with a grade of 'C' or better.

**Course Description:** A first course in statistical methods including such topics as collecting, grouping, and presenting data; measures of central tendency, position, and variation; theoretical distributions; probability; test of hypotheses; estimation of parameters; and regression and correlation. Use of statistical computer software and/or a scientific calculator (capable of performing 2-variable statistics) will be required. Students must earn a grade of 'C' or better.

Summer 2020 (Term 20203)

Session 2 – May, 2020-June, 2020

Friday Night - 6:30pm – 10:20pm

**PHI2600** - *Introduction to Ethics* (3.0 Credit Hours)      **Prerequisites:** None

**Course Description:** This course is an introduction to the nature of ethics, ethical thinking, major intellectual movements in the history of ethics, and specific problems in ethics. A study of the basic concepts and principles of morals, values, and judgments that govern human actions, as well as various ethical theories, will be conducted. The relationship between ethics, society, religion, and culture will also be examined.

Saturday Afternoon - 11:00am – 2:50pm

**SCM2163** – *Customer Service/Customer Relationship Management* (3.0 Credit Hours) 

**Prerequisites:** None

**Course Description:** This course will enable students to understand Customer Relationship Management (CRM) and Customer Service Operations (CSO) as it refers to practices, strategies and technologies that companies use to manage and analyze customer interactions and data throughout the customer lifecycle, with the goal of improving business relationships with customers, assisting in customer retention and driving sales growth. CRM and CSO key performance elements include compiling information on customers across different channels, points of contact between the customer and the company, which could include the company's website, telephone, live chat, direct mail, marketing materials and social media. CRM and CSO systems provide customer service staff detailed information on customers' personal information, purchase history, buying preferences and concerns.

# Supply Chain Management *Express*, Class 9 Course Descriptions

Fall 2020 (Term 20211)

Session 2 – August, 2020-October, 2020

**Friday Night - 6:30pm - 9:15pm**

 **MAN2021** - *Introduction to Management* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** This course covers fundamental management principles and concepts. Emphasis is placed on the management functions of planning, organizing, staffing, directing and controlling. Principles of scientific management, motivation, and economic analysis are studied relative to their use in business decisions.

**Saturday Morning - 8:00am - 10:45am**

 **SPC1024** - *Introduction to Speech Communications* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** This course is designed to provide students with the fundamentals of speech communication including speaking and listening. Topics include: intrapersonal, interpersonal, verbal, nonverbal, small group communication, and public speaking in various cultural contexts.

**Saturday Afternoon - 12:00pm - 2:45pm**

**SCM2520** – *Six Sigma Yellow Belt* (3.0 Credit Hours)

**Prerequisites:** None

**Course Description:** The units in this body of knowledge include learning objectives in the form of specific learning outcomes and the cognitive level at which test questions will be written. This information will provide guidance for the candidate preparing to take the exam. The specific learning outcomes are not intended to limit the subject matter or be all-inclusive of what might be covered in an exam. It is meant to clarify the type of content to be included in the exam. Although the intent of this course is to prepare a candidate to take the Six-Sigma Yellow Belt certification the content is, none-the-less, significantly valuable to any supply chain management curriculum. The descriptor in parentheses at the end of each entry refers to the maximum cognitive level at which the topic will be tested.

 Credit-by-Examination option available for this class.

\*Cost information is subject to change.

**Prior Learning Assessment (PLA)** – Broward College has developed assessments in various courses. Assessment fees are \$30 per credit. Faculty assessors determine the assessment method. See your advisor for more information.

**CLEP Exams** – The *College Level Examination Program* (CLEP) allows students to obtain credit for what they already know by testing and earning satisfactory scores on CLEP exams. For more information visit <http://www.collegeboard.com/clep/>. Exams are \$95 (\$80 to the “College Board” and \$15 to Broward College).

**DSST** – As of 2006, DSST exams are available to anyone who is seeking college credit outside the traditional classroom, including college students, adult learners, high school students and military personnel. Many confuse DSST with DANTEs (Defense Activity for Non-Traditional Education Support), which is a division of the Department of Defense that provides educational support to military members. In 2004, the exams were acquired and are now owned and administered by Prometric. There are several upper and lower-level courses available in a variety of subjects – everything from social sciences to history to business. Exams are generally \$80 plus a proctor fee. Visit <http://getcollegecredit.com/>.
